

Old Town Hall - Films

Tuesday 18th May 7:30pm **Free admission.**

We shall be showing the film 'The Age of Stupid'. The film stars Pete Postlethwaite and is about the possible consequences of a warming planet. This is a hard hitting and provoking film starring Pete Postlethwaite as the curator of a museum devoted to the follies and shortsightedness leading up to irreversible climate change. Jet travel, wind turbines and melting glaciers are overlapping story lines given a human face with an interesting interweaved documentary story lines.

These films are a joint venture between the Old Town Hall and the Weymouth and Portland Transition Towns group.

Tuesday 25th May 7:30pm

The Power of Community:

A documentary on how a whole community adapted to a low carbon life as the oil was cut off in Cuba. The positive changes that resulted from more local food production or cycling give a vision of how Chapelhay might adapt to the future. 1 hour free admission.

Tuesday 1st June 7:30pm

In Transition :From Oil dependence to local Resilience' film produced by the Transition Network. Climate change and peak oil challenge our way of life. How can we move from lives addicted to cheap oil? The Transition movement now has 7000 active villages and towns. Could Chapelhay be the next to plan an energy descent pathway to a happier, healthy future?

1 hour free admission contact: Jon Orrell 01305 772152
